

Meetings and Event Solutions

While there are many products to meet the demands of today's corporate travel program, meetings management represents a sort of 'unknown frontier.' But just as it has done in the past for transient travel, Travelocity Business has solutions in place to rein in this traditionally unmanaged spend category and give travel managers complete visibility into their meetings programs.

Travelocity Business offers integrated meeting and event capabilities that allow meeting planners to enjoy a seamless booking experience while ensuring bottom-line savings for your Strategic Meetings Management Program (SMMP). Together with our partners, Worktopia® and Meetings & Incentives® (M&I), we provide meetings and event management solutions that can streamline and optimize your meetings program.

M&I: Dedicated Meetings and Event Services

Travelocity Business and M&I offer a fully integrated, comprehensive and turn-key meetings and event management solution. The companies offer a full range of services to help customers effectively manage spend across the transient and group categories. As a full-service meeting management company, M&I's primary services include strategic meetings management, sourcing, registration and housing, group air, planning, production services, on-site services, incentives and eMeetings. Additionally, M&I provides detailed reporting and strategic account management services to ensure your cost-avoidance, audit compliance, savings and event goals are exceeded.

Worktopia: Simple Meetings Management

Simple meetings – those that involve fewer than 100 attendees – make up more than two-thirds of all corporate offsite meetings and yet are generally unaccounted for policy-wise. But with Worktopia's Universal Meeting Solution™, your travelers can search, compare and book simple meeting space and overnight guest rooms online in real-time from your booking site. Worktopia completely automates the process for meeting planners to book space for simple meetings, arrange catering, AV equipment, overnight group accommodations and other amenities in a single online session. Worktopia can significantly increase compliance with your travel policies with easy-to-use, powerful meeting tools.

Travelocity Business: Let the Stars be your Guide™

Travelocity Business is a full-service corporate travel management company, and meetings and event services represents only a portion of what we do. Learn more about our compelling combination of best-in-class automation and traditional travel management services by contacting us at 866-GET-TBIZ (438-8240) or visit www.travelocitybusiness.com.
